Product Description

Description

Introducing Our Emax Crown - A Perfect Blend of Nature and Aesthetics

At our company, we are dedicated to crafting superior quality dental products that meet the needs of our clients. Our Emax Crowns are an innovative product that combines the best of aesthetic and natural-looking features to bring you a superior product.

Our team of experts has developed Emax Crowns using cutting-edge technology, ensuring that every product is durable, strong, and aesthetically pleasing. Our Emax Crowns are perfect for those who are seeking dental crowns that can blend in with their natural teeth.

Here are some of the exceptional features of our Emax Crown that make it stand out from other dental products in the market:

1. Natural Appearance

Our Emax Crowns are made of a state-of-the-art material that mimics the natural appearance of your teeth. The product gives your tooth crown a translucent effect, which ensures a seamless blend with the surrounding teeth.

2. Durability

Our Emax Crowns are made of tough materials that guarantee an extended lifespan of up to 15 years or more. The Emax Crown is strong enough to withstand the wear and tear of constant biting or grinding.

3. Versatility

Our Emax Crowns can be used for a wide range of dental applications, including bridges, dentures, and implants.

4. Resistance to Staining

Emax Crowns are also resistant to staining, ensuring that the user enjoys a beautifully white smile for a longer time. Our Emax Crowns are made of materials that are resistant to discolouration and staining but are still easy to clean.

5. Biocompatible Material

Our Emax Crown material is biocompatible, meaning that it's suitable for everyone, including individuals who are allergic to metal-based crowns.

6. Perfect Fit

Our Emax Crowns are custom-fit to precisely fit the user's tooth. This ensures that the user enjoys a comfortable and natural fit, while also preventing any future dental issues.

7. Easy to Install

Our Emax Crown installation process is quick, seamless, and painless. You'll be able to enjoy an aesthetically pleasing and natural-looking crown within a short period.

To summarize, our Emax Crown provides an excellent blend of technology and aesthetics, giving you an exceptional dental product that is natural-looking, durable, and perfect for anyone. Our product has several advantages over traditional dental crowns, including resistance to staining, durability, biocompatibility, and a perfect fit.

We are confident that our product is of superior quality compared to other dental crowns in the market, and we welcome you to try out our Emax Crowns today. We are determined to provide the best customer experience, and we guarantee that you'll be satisfied with our product.

We welcome any questions or consultation regarding our Emax Crown, and we look forward to hearing from you soon. Thank you for your interest in our product.

Production Introduction:

E.MAX is Lithium Disilicate glass, an all-ceramic system. It is one of the most aesthetically pleasing options, porcelain can be layered on it, creating incredible translucency and a very realistic looking tooth that matches with other natural teeth.

Product Parameter

Customized

Product Feature and Application

Natural looking E.max all porcelain crowns look almost identical to natural teeth, because there is no metal in them. Porcelain is added on top of a super hard zirconium substructure for a beautiful & long lasting crown

- Excellent esthetics and high strength
- Versatile applications and extensive indication range
- Minimally invasive preparation and adhesive cementation
- Kind to opposing dentition
