Product Description

Cement-Retained Implant

Enhance your dental restorations with Cement-Retained Implants from ADS China Dental Lab. These implants offer secure and stable solutions with natural-looking aesthetics, ensuring seamless integration with your natural teeth.

Advantages

Secure and Stable Restoration: Cementation technique provides a strong and stable bond for long-lasting results.

Natural-Looking Aesthetics: Customizable to match the patient's natural teeth, ensuring a harmonious and attractive smile.

Customized Fit: Precisely fabricated to fit each patient's unique anatomy for optimal function and esthetics.

Versatility for Various Scenarios: Suitable for single-tooth replacements and multiple teeth, including implant-supported bridges.

Collaboration with Dental Professionals: Close collaboration with dental professionals ensures seamless integration and optimal patient outcomes.

Key Features

Secure and Stable: Cementation offers a strong bond, ensuring stability and longevity.

Natural-Looking Aesthetics: Blends seamlessly with natural teeth for a beautiful, natural-looking smile.

Customized Fit: Tailored to fit the unique anatomy of each patient's mouth, ensuring optimal function and esthetics.

Versatility: Can be used for single-tooth replacements and multiple teeth, including implant-supported bridges.

Collaboration with Dental Professionals: Ensures seamless integration within the overall treatment plan.

Indications

Single-tooth replacement

Multiple teeth replacement (including implant-supported bridges)

Considerations

Proper oral hygiene and regular dental visits are essential for the long-term success and maintenance of Cement-Retained Implant restorations.

Careful removal of excess cement is necessary to prevent potential complications.

Experience Quality with ADS China Dental Lab

ADS China Dental Lab is dedicated to providing high-quality Cement-Retained Implants that combine security, stability, and natural-looking aesthetics. Trust our expertise for your dental restoration needs.
