Product Description

All-on-4/6 Dental Implants

The All-on-4/6 implant system is a sophisticated, semi-full dental solution that requires a high level of expertise to fabricate. ADS China Dental Lab delivers high-quality All-on-4/6 implants that help patients adapt to their new dentures quickly and comfortably.

Expert Technicians at ADS China Dental Lab

With 10 technicians, each having over 10 years of experience, our lab ensures the highest quality in implant fabrication. Their expertise allows us to promptly address and resolve any challenges that arise during the process.

Key Features

Reduced Implant Placement: Requires only 4 or 6 implants, reducing healing time and costs.

Natural Aesthetics: Designed to maintain jawbone support and prevent bone loss, offering a natural-looking smile.

Pure Titanium Framework: Made from biocompatible titanium with superior corrosion resistance.

Durability: Advanced CAD/CAM technology and high-quality materials ensure longevity, with implants lasting 10-20 years.

Indications

Acrylic Pure Titanium Implants: Most cost-effective, adaptable, but prone to damage.

Porcelain Pure Titanium Implants: Durable and aesthetic, but costly and hard to repair.

Zirconia Pure Titanium Implants: Extremely durable and beautiful, but expensive and difficult to repair.

Considerations

Precision and Fit: Oral scan data or impressions before and after procedures enhance accuracy and ease adjustments.

Choose ADS China Dental Lab

For reliable All-on-4/6 implants, trust ADS China Dental Lab. Our experienced technicians and cutting-edge technology guarantee high-quality results. Contact us for more information.
