Product Description

All-on-4/6 Dental Implants

The All-on-4/6 implant system from ADS China Dental Lab represents an advanced, semi-full dental solution that is more challenging to fabricate than traditional implants. These high-quality implants help patients quickly adapt to their new dentures.

Why ADS China Dental Lab?

Our team of 10 technicians, each with over 10 years of experience, is dedicated to implant fabrication. Their expertise ensures high-quality results and client satisfaction.

Key Features

Reduced Implant Placement: Only 4 or 6 implants are required, reducing healing times and costs.

Natural Aesthetics: Prevents bone loss and maintains jawbone support with natural-looking dentures.

Pure Titanium Framework: Made from biocompatible titanium with excellent corrosion resistance.

Durability: Utilizing advanced CAD/CAM technology and high-quality materials, these implants last 10-20 years with regular care.

Indications

Acrylic Pure Titanium Implants: Affordable and flexible, but less durable.

Porcelain Pure Titanium Implants: Durable and aesthetically pleasing, but expensive and difficult to repair.

Zirconia Pure Titanium Implants: Highly durable and attractive, though costly and challenging to repair.

Considerations

Oral Scan Data: Precision is enhanced by providing scan data or impressions before and after procedures.

Contact ADS China Dental Lab

For high-quality All-on-4/6 implants, trust ADS China Dental Lab. Our skilled technicians and advanced technology ensure optimal results. Contact us for details.
