- Biocompatibility: Excellent
- Durability: Long-lasting
- Resistance To Fracture: High
- Highlight: OEM Dental Veneer,
Zirconia Stain Dental Veneer,
Dental Lab zirconia veneers

Product Description

Introduction

ADS Dental Lab is pleased to introduce our latest product – Zirconia Stain. This product is designed to enhance the aesthetic appearance of zirconia restorations, providing a natural and lifelike finish. Our Zirconia Stain is ideal for dental professionals looking to achieve a perfect color match and high-quality results.

Key Features

Natural Aesthetic Finish

Our Zirconia Stain ensures a natural-looking finish that blends seamlessly with the patient's existing teeth. The stain mimics the translucency and color variations of natural enamel, providing a lifelike appearance.

High Customizability

The stain can be customized to match various shades and hues, allowing dental technicians to achieve the precise color required for each individual case. This ensures a perfect match with the patient's natural dentition.

Durable and Long-Lasting

Made from high-quality materials, our Zirconia Stain is durable and resistant to wear. It maintains its color stability over time, ensuring that the restoration retains its aesthetic appeal for years.

Easy Application

The stain is easy to apply, allowing for efficient workflow in dental laboratories. It can be used on all types of zirconia restorations, including crowns, bridges, inlays, onlays, and veneers.

Safe and Biocompatible

Our Zirconia Stain is biocompatible and safe for use in the oral cavity. It has been thoroughly tested to meet the highest standards of safety and quality.

Applications

Crowns and Bridges

Enhance the aesthetic appeal of zirconia crowns and bridges, ensuring they blend naturally with the patient's teeth.

Inlays and Onlays

Achieve a perfect color match for inlays and onlays, providing a seamless integration with the surrounding tooth structure.

Veneers

Create lifelike and natural-looking veneers that are indistinguishable from natural teeth.

Instructions for Use

Preparation Clean the zirconia restoration thoroughly before applying the stain.

Application Apply the Zirconia Stain using a brush, ensuring even coverage over the restoration.

Firing Fire the stained zirconia restoration according to the specified temperature and time to achieve the desired color and durability.

Benefits

Enhanced Aesthetics Achieve a natural and lifelike finish that enhances the overall appearance of zirconia restorations.

Efficient Workflow Easy application process allows for quick and efficient work in dental laboratories.

Long-Lasting Results Durable and color-stable, ensuring the restoration maintains its aesthetic appeal over time.

Conclusion

ADS Dental Lab's Zirconia Stain is the perfect solution for dental professionals seeking to enhance the aesthetic quality of their zirconia restorations. With its natural finish, high customizability, and ease of use, it is an essential product for achieving superior results. Trust ADS Dental Lab for all your zirconia staining needs.
