

## China-Based Dental Lab: Natural Shade Zirconia Crown - High Strength Restoration

Our Product Introduction

for more products please visit us on [adschinadentallab.com](http://adschinadentallab.com)

### Basic Information

- Brand Name: ADS China Dental Lab

### Product Specification

- Biocompatibility: Excellent
- Esthetics: Natural
- Strength: High
- Application: Dental Restoration
- Resistance To Fracture: High
- Material: Zirconia
- Durability: Long-lasting
- Resistance To Staining: High
- Highlight: Veneer layered zirconia crown,  
ADS Dental Lab layered zirconia crown,  
Veneer zirconia layered with porcelain

## Product Description

### Introduction

ADS Dental Lab proudly presents Zirconia Stain, designed to enhance the aesthetic quality of zirconia restorations. Our stain provides a natural and lifelike finish, making it ideal for dental professionals focused on achieving precise color matching and superior results.

### Key Features

**Natural Aesthetic Finish** Ensures a seamless blend with natural teeth by mimicking the translucency and color variations of enamel.

**High Customizability** Customizable to match various shades and hues, ensuring precise color matching for each patient.

**Durable and Long-Lasting** Made from high-quality materials, maintaining color stability and durability over time.

**Easy Application** Designed for efficient workflow, easy to apply on all zirconia restorations.

**Safe and Biocompatible** Biocompatible and safe for use in the oral cavity, adhering to the highest safety and quality standards.

### Applications

**Crowns and Bridges** Enhance the aesthetic appeal of zirconia crowns and bridges, ensuring natural integration with teeth.

**Inlays and Onlays** Achieve seamless color matching for inlays and onlays, integrating naturally with the tooth structure.

**Veneers** Create natural-looking veneers that are indistinguishable from real teeth.

### Instructions for Use

**Preparation** Clean the zirconia restoration thoroughly before applying the stain.

**Application** Apply the stain evenly using a brush.

**Firing** Fire the stained restoration at the specified temperature and duration for optimal color and durability.

### Benefits

**Enhanced Aesthetics** Natural and lifelike finish that improves the appearance of zirconia restorations.

**Efficient Workflow** Easy and quick application process for efficient use in dental labs.

**Long-Lasting Results** Durable and color-stable, ensuring lasting aesthetic appeal.

### Conclusion

ADS Dental Lab's Zirconia Stain is the ideal choice for dental professionals looking to enhance the aesthetic quality of zirconia restorations. With its natural finish, customizability, and ease of use, it's a must-have for achieving superior results. For more information or to place an order, contact ADS Dental Lab today.
