

Dental Teeth Full Mouth Zirconia Implants Abutment Custom CAD CAM

Basic Information

Product Specification

- Feature: Durable
- Product: Dental Implants
- Design: Natural-looking
- Surface: Smooth
- Maintenance: Easy To Clean
- Custom Abutments: CAD/CAM Or Casting
- Material: Titanium
- Color: Silver
- Highlight: full mouth zirconia implants Abutment,
Custom full mouth zirconia implants,
zirconia teeth implants Abutment

Product Description

Introduction

Introducing Zirconia Screw-Retained Implants from ADS China Dental Lab, engineered for secure and reliable dental restorations. These implants are designed to optimize both function and esthetics, providing a seamless fit with the patient's natural teeth.

Advantages

Secure and Reliable Restoration: The screw attachment ensures a stable and long-lasting connection between the implant abutment and the prosthetic restoration.

Optimal Function and Esthetics: Customization allows the implants to blend naturally with existing teeth, ensuring proper occlusion and chewing efficiency.

Customized Fit: Each implant is precisely tailored to fit the patient's unique oral anatomy.

Versatility: Ideal for single-tooth replacements and multiple teeth, including implant-supported bridges.

Collaboration with Dental Professionals: We work closely with dentists and oral surgeons to ensure seamless integration and optimal results.

Key Features

Secure and Reliable: Strong screw attachment provides durability and stability.

Optimal Function and Esthetics: Custom-designed for a natural-looking and harmonious smile.

Customized Fit: Tailored to fit the patient's mouth for optimal function and appearance.

Versatility: Suitable for single-tooth and multiple teeth restorations, including implant-supported bridges.

Collaboration with Dental Professionals: Ensures seamless integration and optimal patient outcomes.

Indications

Single-tooth replacement

Multiple teeth replacement (including implant-supported bridges)

Considerations

Maintaining proper oral hygiene and regular dental check-ups are crucial for the longevity and success of Screw-Retained Implant restorations.

Easy access for maintenance and adjustments through removal and reattachment of the restoration.

Conclusion

ADS China Dental Lab's Zirconia Screw-Retained Implants provide a secure, reliable, and aesthetically superior solution for dental restorations. Contact us for more information on enhancing your dental practice with our high-quality implants.
